Join the Palos Verdes Peninsula Land Conservancy and Art to Grow On, Inc. for a family coastal hike and children's art workshop at Terranea Resort. We will begin with a short hike down Discovery Trail (begins adjacent to public parking lot west of Terranea) to view the coastline through the eyes of an explorer experiencing the scenery for the first time!

The hike will include fun activities along the way. Together we will observe features in the coastal landscape. Next, the young artists will paint their own masterpieces in an outdoor studio!

Meet at the Fishing Access parking lot between the Lighthouse and Terranea Resort.

Generously hosted by Terranea Resort
