Join the Palos Verdes Peninsula Land Conservancy and Art to Grow On, Inc. for a family coastal hike, trail activities and children's art workshop at Terranea Resort. We will begin with a short hike down Discovery Trail to learn about birds and observe the winter landscape to gather inspiration for painting.

The hike will include fun activities and a few guest appearances from our feathered friends along the way. Next, the young artists will paint their own masterpieces in an outdoor studio!

Meet at the pelican statue next to the Fishing Access parking lot between the Lighthouse and Terranea Resort.
